KEEPING STUDENTS AND TEACHERS CONNECTED

This fall, over 67% of higher education institutions have declared they will open their campuses to on-campus students.* To future-proof and keep students and parents at ease, most schools will also allow students to attend remotely—creating a hybrid of remote and campus-based education.

Whether it's equipment for the classroom, for online learning or both, Legrand | AV is committed to solutions that connect teachers to students and colleagues to colleagues. At Legrand | AV, we don't just make products. We see it as our responsibility to ensure a connected world.

Explore our education solutions to maintain the most vital connections today and every day.

LIVE STREAMING & VIDEO CONFERENCING

TOOLS FOR CONFERENCING, RECORDING, STREAMING, AND BRANDING YOUR VIDEO

Classroom-in-a-Box Solution for Lecture Capture and Live Streaming

The AV Bridge 2x1 Presentation Switcher makes it easy to record and stream high-definition video – ideal for lecture capture. Two HDMI inputs allow for switching between two cameras or a camera and computer. Select picture-in-picture options for more engaging live presentations and lectures.

Revolutionize the Classroom with AV over IP

The EasyIP Mixer Base Kit is an AV-over-IP classroom system in a box that is ideal for large classrooms and multi-camera applications. The EasyIP Mixer combines Dante audio sources and four Vaddio EasyIP cameras to deliver our easiest production system to date. Base kit includes one EasyIP Mixer, one EasyIP Switch, and one EasyIP 10 Camera.

Did you know...

Vaddio PTZ cameras are designed, manufactured and assembled in Minnesota, making them TAA and BAA compliant.

DISPLAY MOUNTS & PROJECTOR MOUNTS

SMART DESIGNS FOR EVERY CLASSROOM

Extra-large Height Adjustable Cart & Floor Support Mount

Ideal for interactive applications, mounts with electric height adjustable capability create better accessibility to technology in the classroom. The height adjustable solution provides 26" (660 mm) of vertical lift.

Cart:

Mount:

Sleek, Slim, Easy-to-Install Projector Mount

The VCT Large Venue Projector Mount was designed to install quickly while maintaining a sleek aesthetic. Light and slim, the VCT works with projectors between 50 to 150 lbs (22.7 – 68 kg). Tool-free MicroZone adjustment ensures accurate and reliable image registration.

Ideal for Interactive Applications in the Classroom

Fusion Dynamic Height Adjustable Wall Mounts with dynamic height adjustable capability create better accessibility to technology in the classroom. The height adjustable solution provides ultra-smooth and fast vertical travel with almost no effort. Ships fully assembled with the LSM1U mount to make this a complete aesthetic solution. Easy to install. Easy to adjust.

Check Out the Mobile Live Streaming Cart

Here's a scalable stop-gap measure for creating e-learning on the fly: a mobile cart decked out with live streaming equipment. It's flexible and mobile for easy transport and sharing between departments.

FURNITURE & POWER

A BETTER SOLUTION FOR EDUCATORS

L7 Series Lecterns – Ideal for Hybrid Learning

L7 Series Height Adjustable Lecterns are the faculty’s new epicenter for hybrid learning. Provides a generous workspace plus room for equipment storage, power and connectivity. Offers touch screen cutouts that are intelligently designed to sit flush with the panel – fitting the Crestron 760 and 1060 touch screen. ADA compliant with rackmount storage and wireless charging. Made in the USA.

Best-In-Class Power Management Solution

The Premium+ PDU with RackLink™ provides enhanced control/logging at the individual outlet level, real-time system and environmental monitoring, and robust network security to remotely manage your AV systems.

[Download RackLink Selection Guide >](#)

What is Intelligent Power?

This next-generation power distribution unit provides unmatched monitoring, control, logging, security and power protection capabilities available for demanding AV applications. The RackLink™ technology allows you to control locally or virtually through third party AV control systems, cloud platforms and SNMP for flexible management that is smarter, faster and reduces service costs.

SCREENS

TRUSTED AND PROVEN SCREEN TECHNOLOGY

The Advantage? Simplified Installation

The Tensioned Advantage® ceiling recessed electric screen series is designed with ceiling trim in place to conceal the rough opening—eliminating the need to complete additional trim work once the screen is installed.

Its two-stage installation option affords the screen case to be installed during the rough-in construction stage, and the screen surface assembly during the finishing stage. Sliding installation brackets allow mounting flexibility for easy attachment of the screen housing to the structure above the drop ceiling. Available with a variety of screen surfaces, including HD Progressive for high resolution experiences and Parallax® for challenging ambient light environments.

Discover Our Double-Duty Touch Screen and Whiteboard

The IDEA™ Screen can be used as a touch screen AND as a whiteboard with dry-erase markers. Featuring upgraded durability, surface uniformity and rigidity to ensure a superior interactive experience, all IDEA Screens are also magnetic and easy to clean. Its thin frame ensures minimum interference and maximum surface area for interactivity with ultra-short throw projectors. The erasable surface is hotspot-free under projection. A tray for storing markers, erasers and interactive tools makes it the ideal classroom partner.

Dramatic and Cinematic

The Cinema Contour fixed frame screen features a wider, more substantial frame – plus the latest technology in projection surfaces designed for 4K and Ultra HD to maximize the technology of your projector. The larger standard black frame gives the eye a point of reference and enhances contrast.

CABLES & CONNECTIVITY

CONNECTIVITY ESSENTIALS FOR BETTER LEARNING

The Perfect Cable for Classroom Projectors

The High-Speed HDMI® Active Optical Cable (AOC) 4K 60Hz plenum-rated cable extends HDMI signals over optical cable and supports the latest HDMI features including 4K at 60Hz, 3D video and deep color.

The Easy Way to Extend USB Devices

The 1-Port USB 2.0 Over Cat6 Wall Plate to Box Extender is a simple, yet powerful solution for extending USB signals beyond their native 16.4 foot length limitation. Extends USB 2.0 signals for a single USB device up to 150 feet (45.7 m) over a single Cat6 cable. TAA compliant.

The Perfect Hybrid Docking Station for Office Desktops

The USB-C® Dual Display MST Docking Station supports connected devices, such as keyboards, mice, portable hard drives, and other peripherals, all while supporting up to 65W of power delivery to charge and power a laptop. Connect a USB-C laptop or tablet for video extending and data transfer while simultaneously charging.

The Easy Way For Everyone To Connect

The Retractable Universal Mount 4K HDMI Adapter Ring is the perfect addition to conference rooms, huddle spaces, lecture halls or classrooms to make sure that anyone can connect. Standard configuration includes color coded HDMI to DisplayPort, Mini DisplayPort, or USB-C adapters that has an integrated pull tab so adapters can be accessed quickly or easily reached when they're tucked away.

AV

At Legrand | AV, we are dedicated to keeping people connected no matter where they are. If you have any video conferencing or live streaming or connectivity questions, our solutions engineers are ready to help. Email us at av.solutions@legrand.com with the details of your project.
